What Audiences are Saying

(Partial listing)

"A Winner!"

The event was one of the best I have attended in my 17 years of health care. It really was.

~ Charles Waltos, M.D.,
Physician

"A Defining Experience!"

Listening to Karen is like entering a magical kingdom. The kingdom under the power suit, under the intellect, under the mind games. As I move through the second half of my life, I now own my ever-expanding awareness of my eternal nature and ageless worth. Karen Sands is an absolute must!"

~ Elsie Maio,
Founder of Humanity, Inc./The SoulBrandingSM Institute

"Our Baba Yaga has a lot to teach us!"

I love the way Karen shares her multiple visions to emerge from a provocative mind. I love the way she surprises me with the message that her 50s were a long time ago. I appreciate the idea that 20-year-olds should not be excluded and neither should 90-year-olds. Karen, our Baba Yaga to Ageless Aging has a lot to teach us.

“Worth Its Weight in Gold!”

I attended a professional development seminar presented by Karen Sands. Her thoughtful preparation allowed her to immediately connect with her audience. Her exercises and role-plays identified areas for improvement. This program was relevant, engaging and worth its weight in gold. In short, I was inspired by this session, which ended all too quickly.
