KAREN SANDS >

SHAPING THE NEW STORY OF OUR AGE

MCC, BCC, Leading GeroFuturist™, best-selling author, firecracker speaker, game changer, and thought leader on the Longevity Economy, 40+ market, the business of aging and the aging of business.

SIGNATURE KEYNOTES

THE AGELESS WAY™

Based on her best seller, *The Ageless Way*, endorsed by Harry R. Moody, Ph.D., Suzanne Braun Levine, and Paul Irving, Karen masterfully jolts our assumptions and opens the way to envisioning new alternative futures in the Longevity Economy. She weaves together powerful storytelling with spot-on insights and foresight grounded in hard-core research. She forecasts that women will redefine growing older, catalyzing a transformation of the business of aging, as we all step into the uncharted territory of the new Ageless Way.

GRAY IS THE NEW GREEN™

Grounded in her best seller, *Gray is the New Green*, Karen inspires audiences to turn anxieties of aging into assets in the new Longevity Economy. The graying of Boomers promises growth for people, planet and profits. Insights gained in this keynote will lay the foundation for effective, innovative – even visionary – social impact approaches that will reveal unconscious bias and unleash untapped potential, while you rock your revenues.

THE GREATNESS CHALLENGE™

Karen shifts paradigms and turns the future and our role in it inside out and upside down. She argues that as we face accelerating global and national crises, we are also on the verge of a (r)evolutionary shift towards greatness. This greatness is now emerging in all sectors and strata of society. Based on her best-selling book, *The Greatness Challenge*.

WHAT AGING SECTOR MEETING PLANNERS ARE SAYING

High Energy, No-Nonsense Karen Sands Helps Us Get Real, Get Paid and Get Results in the New World of Aging.

I sponsored GeroFuturist Karen Sands to speak about the topic: **"Getting Paid What You Are Worth in the Business of Aging and the Aging of Business."** Karen has a fire about her that is infectious, and the entire room was on the edge of their seats. Karen shared her thunderous clarion call that it is time for those in the **people & culture management field and aging industry to leverage the Longevity Economy together to shift the paradigm from aging as a liability to aging as an asset.** I highly recommend her work for any keynote, workshop or conference.
~ Kari Henley, Founder, Age Without Borders

Our Members Were Brought to Their Feet!

A valuable interactive keynote. **Attendees raved** about Karen's **"Ageless Futures" message!** Weaving together redefining growing older, **bridging the generational divide, and catalyzing the transformation of the business of aging and the aging of business,** she **re-ignited our engagement** in the new world of aging.
~ Patti Urban, Executive Director, the Shoreline of Clinton, Founder of End of Life Doula and Founder of SASN

Impressive. Knowledgeable. Contagious Presenter.

I was so impressed with Karen's presentation that I had one of our writers interview her about executive coaching for our publication Best Practices in Human Resources. The first interview was so successful that the writer interviewed her again, this time about **mid-life executive & leadership coaching, plus bridging the generational divide.** Karen's enthusiasm for these subjects is contagious!
~ Elaine Quayle, Former Executive Editor, Business and Legal Reports, Inc.

Passionate. Electric. Engaging.

Karen is one of the only experts **who combine the field of aging and the field of people & culture management.** There are few experts in the field of aging who bring the **depth of passion** to her work as Karen does. Her presentation style is electric and engaging as she speaks through **compelling experiences and stories bringing to light what we need to know about today's 5 generations, with an important glimpse into the future.**
~Jill Berquist, PCC, President, Berquist Coaching Services, LLC

Relevant, Timely, and Necessary!

Karen's presentation is impactful and inspiring! She encourages all of us "to dive deeper", step back to gain perspective, and invites participants to find their own way **through a new lens of thinking.** Rather than provide a lecture, Karen provides a **framework of operation.** Her research, personal connection, and responsiveness is second to none!
~Dr. Robert Tremaglio, Educational Administrator

Riveting World-Class Speaker!

Karen's level of professionalism, as well as her expertise on the topics of **futurism, the business of aging, aging in the workplace, and conscious aging** were exceptional. Her feedback was phenomenal.
~ Maureen Metcalf, Founder/CEO Metcalf & Associates and Voice America
